

Lodovico Parmegiani

Senior Clinical Embryologist

Head of Embryology, NextClinics International

Director, IVF Laboratory GynePro Medical Centers

Lodovico (aka Lodo) is Head of Embryology for NextClinics International (a network of ART centres), IVF Laboratory Director at the GynePro Medical Centers in Bologna, Italy and advisor for biotech companies. He has invented, developed and optimized devices and methods for clinical embryology, and published almost 100 papers and book chapters in this field. Lodo is a Key Opinion Leader in ART. He is Founder and CEO of Nterilizer iSRL, an innovative Start-up in Italy for research, development, and manufacturing of sterile gases for healthcare and food production.
