

Shaista Sadruddin

Senior Clinical Embryologist
Atlanta Center for Reproductive Medicine

Shaista is a clinical embryologist with over eight years of experience in patient management, laboratory skills, and quality management. Her career passions include training, educating, and empowering young professionals to continue to strive towards success and improving the field of ART for the future. Shaista graduated magna cum laude from the University of Georgia with a Bachelor of Science in Biology. She received her Master's Degree in Reproductive Clinical Sciences from The Jones Institute for Reproductive Medicine at Eastern Virginia Medical School. There she conducted research on the validity and consistency of NGS testing on mosaic and aneuploid embryos; and was bestowed the Georgeanna Seegar Jones, MD Award for Academic Achievement in the Reproductive Clinical Sciences. She is currently a senior embryologist at the Atlanta Center for Reproductive Medicine in Atlanta, Georgia. Shaista is a founding member of the International IVF Initiative. In her spare time, Shaista enjoys long walks, desserts, books, and traveling.
