

Arthur Chang, PhD, HCLD, ELD, CC
Professor of OB/GYN
University of Texas Health Science Center, USA

Tiencheng Arthur Chang, PhD, HCLD, ELD, CC, is Professor of OB/GYN at the University of Texas Health Science Center, San Antonio, Texas, USA, and Director of Clinical ART Laboratories at UT Health Reproductive Health & Fertility Center and Brooke Army Medical Center. He earned his bachelor's degree from National Taiwan University and his MS/PhD in Endocrinology and Reproductive Physiology from the University of Wisconsin-Madison. He is board certified by the American Board of Bioanalysis as a High-Complexity Clinical Laboratory Director (HCLD), Embryology Laboratory Director (ELD), and Clinical Consultant (CC).

His clinical and research focus spans IVF, embryology, implantation, extended and 3D embryo culture, artificial embryo, PGT, AI, and ART lab management and business. Prof. Chang has held leadership roles across major professional societies, including American Society for Reproductive Medicine (ASRM: Board, committee chairs), Society for Assisted Reproductive Technology (SART: Board, committee chairs), Society of Reproductive Biologists and Technologists (SRBT: President, Board, committee chairs), American Association of Bioanalysts - College of Reproductive Biology (AAB-CRB: President, Board, committee chairs), Asia Pacific Initiative on Reproduction (ASPIRE: Board, committee chair, SIG co-chair), and Society for the Study of Reproduction (SSR). He is associate editor for Journal of Assisted Reproduction & Genetics (JARG), section editor for Reproductive Biology & Endocrinology (RB&E), advisory board for Fertility & Reproduction (F&R), accreditation inspection team leader for College of American Pathologists (CAP), and off-site director and consultant for clinical laboratories, governments and the industry. He has received multiple honors, including two ASRM Service Milestone Awards, nine times ASRM Star Awards, UT Health's Presidential Excellence Award, and the Springer Nature Editor of Distinction Award. Outside of work, he enjoys tennis, fencing, photography, travel, and aviation, and is an FAA-certified private pilot.
